

AIR INDIA TO BEGIN FLIGHTS TO KUALA LUMPUR, MALAYSIA, FROM 15 SEPTEMBER

GURUGRAM, 05 JULY 2024: Air India, India’s leading global airline, will start non-stop services between Delhi and Kuala Lumpur in Malaysia, starting 15 September 2024. Using its two-class configured Airbus A320neo aircraft, Air India will operate daily on the new route.

The new route will further strengthen Air India’s network of destinations in Southeast Asia, offer a new flight option to an increasing number of travellers between India and Malaysia, and open new connections for Malaysian travellers to access Air India’s global route network.

"We are happy to support the fast-growing tourism and trade corridor between India and Malaysia with this new daily service," said **Nipun Aggarwal, Chief Commercial & Transformation Officer, Air India.** "Leveraging our robust global network, this route will not only serve travellers flying between the two nations, but also offer convenient one-stop connections for travellers from Europe and North America seeking to explore the wonders of Malaysia."

The new services to Kuala Lumpur will enable convenient one-stop connections via Delhi for travellers from the U.S., Canada, UK, and Europe.

The new flights are being progressively opened for bookings on airindia.com, and through travel agents worldwide.

About Air India

Founded by the legendary JRD Tata, Air India pioneered India’s aviation sector. Since its first flight on October 15, 1932, Air India has built an extensive domestic network with non-stop flights to cities around the world, across the USA, Canada, UK, Europe, Far-East, South-East Asia, Australia, and the Gulf. After 69 years as a government-owned enterprise, Air India and Air India Express were welcomed back into the Tata group in January 2022.

Air India is navigating through a major five-year transformation roadmap under the aegis of *Vihaan.AI*, with an ambition to become a world class airline with an Indian heart. The first phase of this transformation, the taxi phase was recently concluded, and focused on fixing the basics. These included bringing back to service many long grounded aircraft, addition of talent across flying and ground functions, rapid upgradation of technology and strengthening of customer care initiatives amongst others.

A member of Star Alliance, the largest global airline consortium of leading international airlines, Air India offers seamless connectivity and facilities to passengers all over the world.
